

## Adding a Web Link

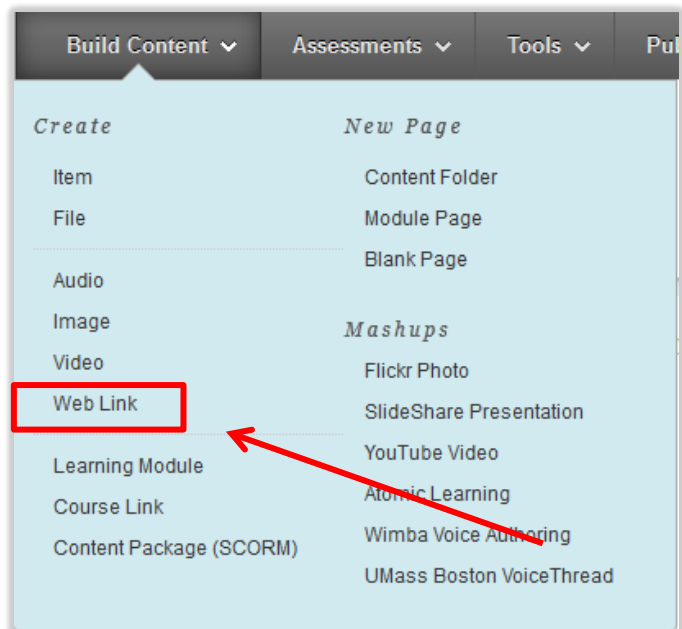

### Introduction

Web links to various websites are useful supplementary resources to your overall course content. Utilizing professional organization websites, publications, articles, or other online resources to exemplify concepts in your course content helps compound the theories students are responsible for learning.

Web links can also help to demonstrate the practicality of the course content principles.

**Step 1:** To add a Web link to your Content Area, click **Build Content** in the left-hand corner of your course space.

**Step 2:** Click **Web link**.

**Step 3:** Name the **Web link** as it needs to appear to students.

**Step 4:** Paste the URL into the URL field.

**1. Web Link Information**

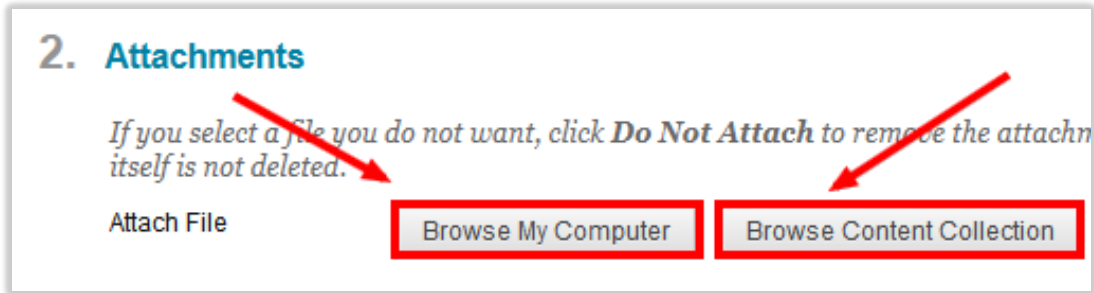

\* Name

\* URL

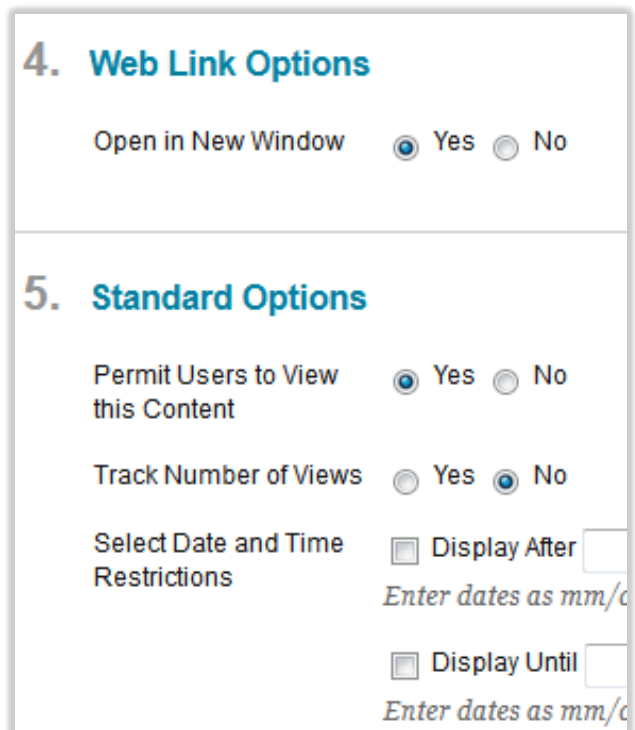

*For example, <http://www.myschool.edu/>*

**Step 5:** Provide a text description to explain the purpose of the website that the link will direct students to. Instruction for how the website is intended to be used as a supplemental resource.

**Step 6:** Upload any attachments that complement the web source by **Browsing the Computer** or **Browsing the Content Collection**.

**Step 7:** Select any options to enable.

**Step 8:** Click, **Submit**.

## Conclusion

We hope this guide was helpful.
