

Grading a Journal Entry

Introduction

Follow the steps below to learn how to grade a journal entry.

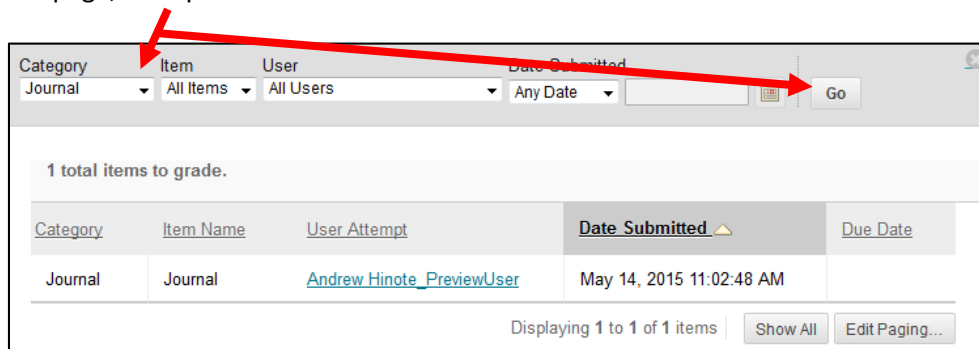

Step 1:

In the course site that contains the journal you would like to grade, click on “Grade Center” at the bottom of the course menu, then click “Needs Grading.”

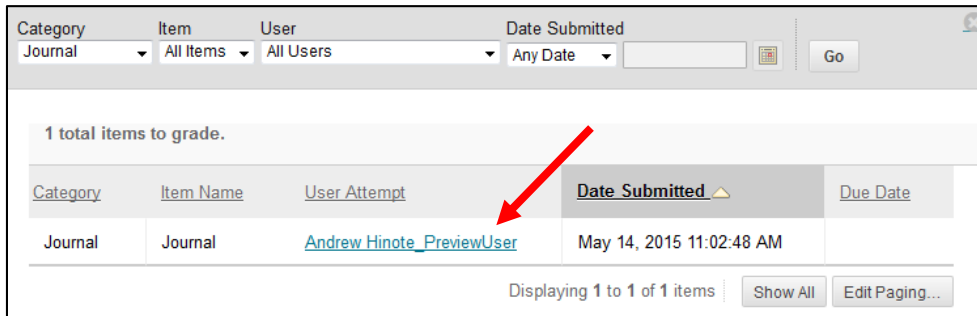

Step 2:

The “Needs Grading” page lists every submission that currently needs to be graded. To identify journal entries from other submissions you can choose “Journal” from the category drop-down list at the top of the page, then press “Go.”

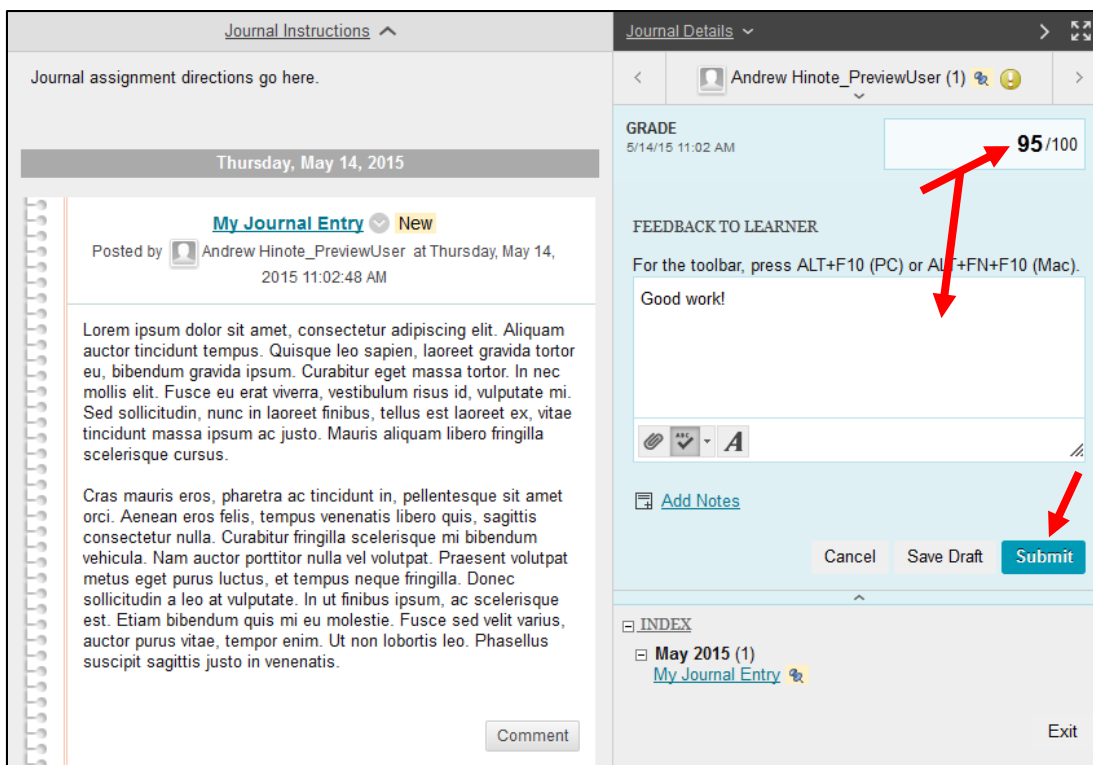

Step 3:

To open a journal entry for grading, click on the “User Attempt” link next to a student’s name on the needs grading page.

Step 4:

The grading page displays the entries this student has made to the journal along the left side of the page, with a box to enter a grade and feedback along the right side of the page. After entering a grade and feedback, press “Submit” to save and move to the next journal entry that needs grading.

Conclusion

We hope this guide was helpful.
