

Embedding NBC Learn Content

NBC Learn has digitized more than 12,000 stories from the NBC News archives - one of the largest news archives in the world, dating back to the 1920s. In addition, collections are updated with current events every weekday, with stories from NBC programs such as Nightly News, the TODAY show, Meet the Press and Dateline.

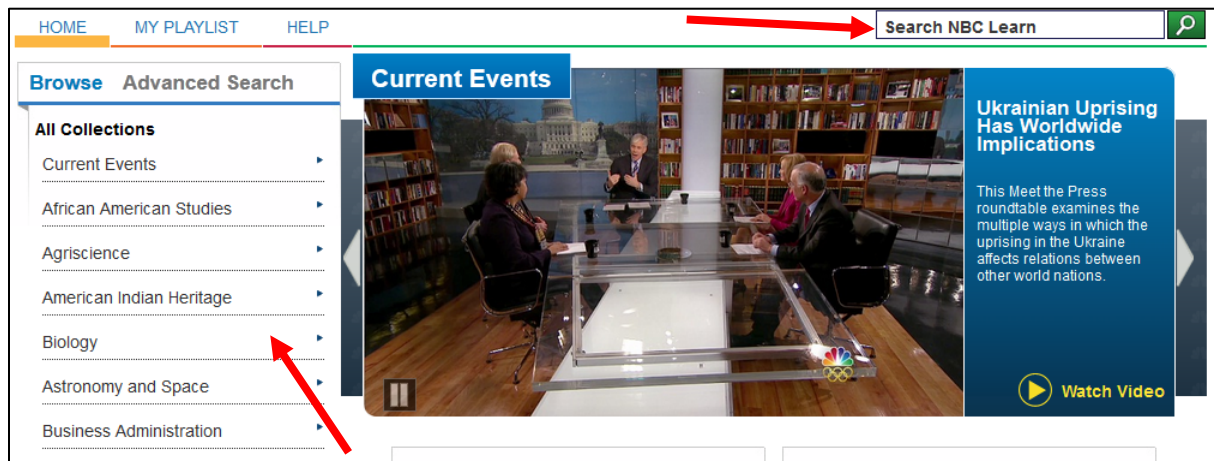

Step 1:

In any content area of a course site click “Build Content” and select “NBC Content” under the “Mashups” heading.

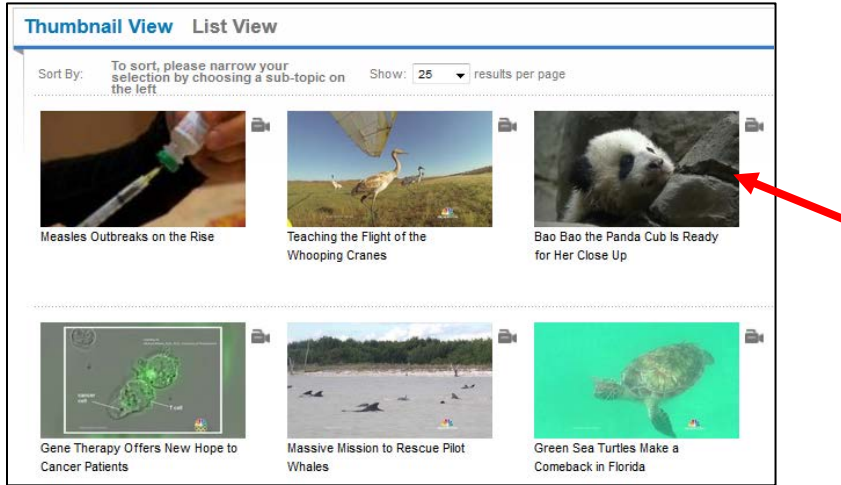

Step 2:

To find a video you can either click through the “Collections” along the left side of the page, or search for a video using the “Search NBC Learn” box in the top-right corner of the page.

Step 3:

In the results that appear, click on a video that you would like to watch.

Step 4:

Click the “Embed” button to pull this video into your content area.

The video will now appear in your content area. You can click on the video thumbnail to watch it.
