

Downloading Files from Box

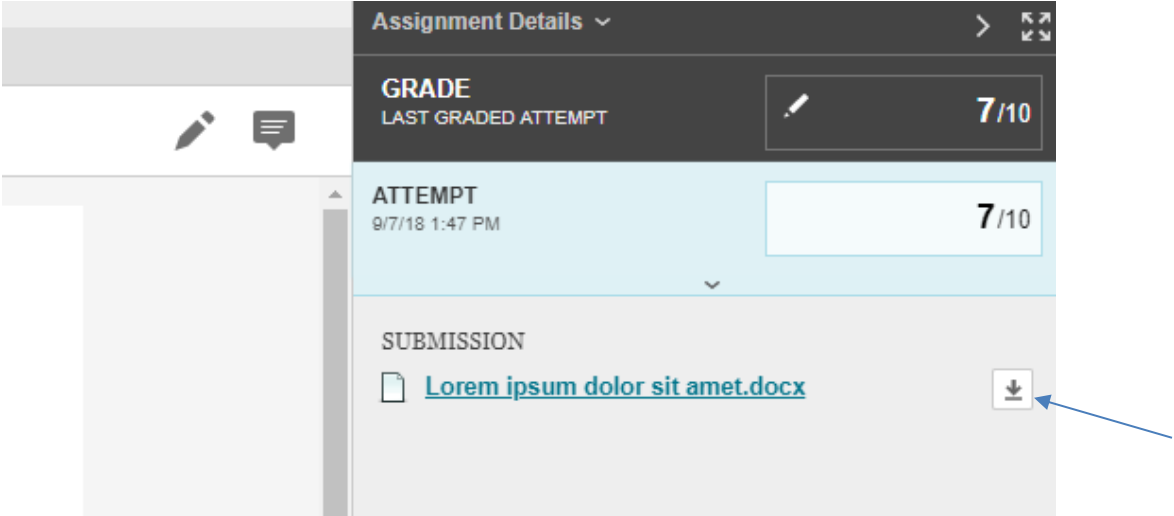

After students submit documents to an assignment their submissions can be downloaded for offline review instead of reviewing them online in the assignment inline grading tool (Box). Choose to download all or just selected student documents as a single .zip file. Unzip or expand the file to view the contents, where each submission is saved as a separate file.

INDIVIDUAL DOWNLOAD

Step 1. In the Grade Center located the attempt and click on the Attempt

Step 2. In Grade Assignment click on arrow next to the Submission to download the document

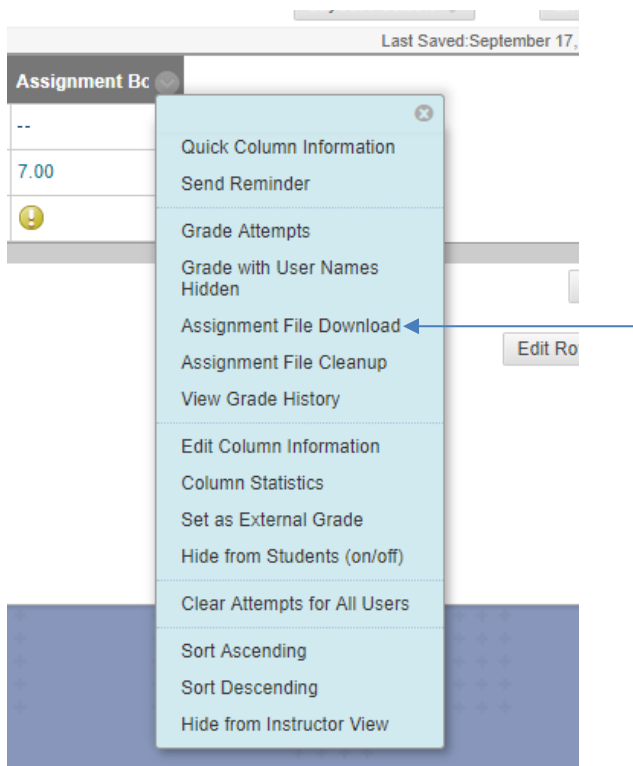

The document will appear in your downloads folder

MULTIPLE SUBMISSION DOWNLOADS

Alternatively, one can also download all available submitted documents at once in a .zip file

Step 1. In the Grade Center, locate the column for the assignments you want to download and select download file.

Step 2. On the Download Assignment page, select the student submissions to download, or select the check box in the header bar to choose all available submissions and click Submit.

When using the Assignment File Download function, user names are included automatically in the file names for easy identification. However, files downloaded one by one from the Grade Assignment page will not include the user names. To avoid confusion, you may want to instruct students to use a detailed file name that includes their last name or their user name when submitting assignments.
