

Importing the myCourses Starter Kit

Step 1:

In the myCourses site you would like to import the starter kit into, click the **“Packages & Utilities”** link at the bottom of the menu and then choose **“Import Package / View Logs.”**

Step 2:

Click the **“Import Package”** button.

Step 3:

Click the **“Browse my Computer”** button and choose the myCourses Starter Kit file on your computer.

Step 4:

Click the **“Select All”** button and then click the **“Submit”** button in the bottom-right corner of the page.
